She lastly shared her concerns regarding the insurance policy that was presented at the Finance & Asset Management meeting including future coverage of the MarketFront project. She had asked if the current coverage is really enough for what we have now.

Ben Franz-Knight noted that the lettering orientation for the public art bench was slightly changed so the word Seattle would be more abstract. He noted that the general concept of the Seattle Art Bench was approved with Resolution 15-18; he asked Matt if this is something we would want to brief the PDA Council on the changes.

We also have an obligation to consider the open seats for the PDA Council. He had asked the committee to consider for the present and future, the potential candidates for the PDA Council. He mentioned that there is a general tendency to bring in a younger candidate since they may be sensitive to the current times such as with technology.
